Grants

Under this process, the applicant will pay all suppliers directly and then reclaim the agreed amounts from Cadwyn Clwyd using a provided Grant Claim Form. ***(If the applicant cannot cover the amount up front please discuss this with the projects officer and other options can be considered)***

Grant Claim Forms will be submitted electronically once the project has completed.

The applicant will need to be aware of the following requirements when claiming funding from Cadwyn Clwyd:

Evidence requirements when submitting a claim:

1. **Copy of Paid Invoice(s):** showing 100% of the costs claimed for. Copies of backing invoices must be made out to the organisation claiming or receipts where appropriate. Invoices will be checked to verify if they are in line with the project application.
2. **Bank Statements:** to prove that the organisation reclaiming costs from Cadwyn Clwyd have defrayed the costs. Photocopies must be certified by a relevant officer in the organisation. The name of the organisation and account number and sort code

must be clearly visible. On-line statements are acceptable but if this does not show name of organisation please also submit one copy of a bank statement so we can evidence the name of the account etc. Original bank statement should be available to be viewed by the Cadwyn Clwyd finance officer.

Procurement

All projects funded must demonstrate value for money and open and transparent procurement of goods and services.

Projects must adhere to the following requirements for procuring goods and services:

It is advised that all applicants sought advice from the project officer before starting any procurement exercise.

Final Value of Goods/Services (excluding VAT)	Requirement	Action
£0 - £2,499	One written quote*	
£2,500 - £24,999	At Least Three written quotes*	3 written quotes or prices sought from relevant suppliers of goods, works and / or services
£25,000 +	Formal tender process *	For projects which receive more than 50% SPF/Public funding they will be required to advertise through the www.sell2wales.gov.wales portal (Officer support and assistance will be available if required).

On like-for-like quotations the cheapest quotation is taken as the chosen supplier. There are, however, some instances when it would not necessarily be appropriate to take the cheapest quotation. These tend to be services where the finished product can vary greatly depending on the supplier, and a written specification cannot pin this down. For example, commissioning an expert to write copy for a booklet, or engaging with an artist to create artwork. In these instances a scoring process can be built into the procurement process, with details of how the supplier is selected clearly outlined in the specification document

provided to the providers. If the project wishes to undertake a scored procurement they should contact their Cadwyn Clwyd Project Officer, who will work with them to prepare a specification document.

A typical scoring breakdown would be as follows:

<ul style="list-style-type: none"> • Value for money (20 marks) 	20%
<ul style="list-style-type: none"> • Approach, Experience and Knowledge 	80%
<ul style="list-style-type: none"> ○ <u>Response to the brief (40 marks)</u> Evidence that the consultant fully understands the brief and a clear explanation of how the contract will be delivered with proposed timescales ○ <u>Experience of the Consultants (40 marks)</u> Relevant skills of the consultant and experience of working on similar projects

Monitoring and Evaluation

The UK Government reserve the right to examine how organisations manage and spend public money. Cadwyn Clwyd and FLVC must comply with an audit request within specific timeframes and as such project participants may be contacted to provide evidence of expenditure.

Equalities, Welsh Language & Net Zero

All projects supported by Prosperous Communities Flintshire Key Fund must adhere to the following

Equalities

Cadwyn Clwyd and FLVC will ensure that a proactive approach is taken to maximising opportunities in terms of the contribution of the project to each of the protected characteristic groups as set out in the Equality Act 2010. Consideration of the potential effects and impacts of the project actions on the protected characteristic groups will therefore be a key consideration for the project steering group in its role of approving key fund applications.

Key fund applicants should consider and implement where appropriate the tailoring of project funded actions to accommodate the access needs of protected characteristic groups; develop monitoring processes which include specific equality assessment; actively engage with equality organisations and groups representing those with protected characteristics to ensure that the benefits of the project investment is maximised for those groups.

Welsh Language

Project Applicants will need to ensure that the Welsh language is treated no less favourably than the English language in all activity and that the Welsh language is proactively promoted and facilitated in the context of all project activity.

Cadwyn Clwyd and FLVC will provide proactive advice to applicants to help them understand the requirements in terms of using and promoting Welsh within the project.

All project funded communications with the public and project beneficiaries are required to be bilingual e.g. project funded websites, social media, leaflets etc.

Community groups and project beneficiaries are encouraged to access support such as, Helo Blod, Menter Iaith and other relevant agencies and services.

Net Zero

Key Fund applicants should consider the UK and WG Governments focus on contributing to net zero objectives and wider environmental considerations. Interventions will be based on low or zero carbon best practice, adopt and support innovative clean tech where possible and support the growing skills and supply chains in support of net zero where possible. The applicant should embrace the clean growth principle and will directly contribute towards the UK's legal commitment to cut greenhouse gas emissions to net zero by 2050.

To support green growth, all applicants will be required to consider how their projects can work with the natural environment to achieve their project objectives, and – at a minimum – consider the projects impact on our natural assets and nature.
